Review of Second Quarter 2015 Financial Results

Adjusted revenues increased 21% to \$102.7 million for the second quarter of 2015 from \$84.8 million for the second quarter of 2014. The increase was primarily due to a 19% increase in revenues from AUM or AUA to \$83.8 million from \$70.7 million in the prior year period. Revenue from Finance Logix, acquired by the Company in May 2015, is included in the second quarter beginning May 6, 2015.

Total operating expenses in the second quarter of 2015 increased 19% to \$96.2 million from \$80.7 million in the prior year period. Cost of revenues increased 12% to \$42.5 million in the second quarter of 2015 from \$38.0 million in the second quarter of 2014 due to the increase in revenue from AUM or AUA. Compensation and benefits increased 27% to \$32.0 million in the second quarter of 2015 from \$25.2 million in the prior year period due to higher personnel cost from Placemark and Finance Logix, as well as higher non-cash compensation expense. General and administration expenses increased 20% to \$15.5 million in the second quarter of 2015 from \$12.9 million in the prior year period, due partly to the inclusion of Placemark and Finance Logix.

Income from operations was \$6.5 million for the second quarter of 2015 compared to \$4.2 million for the second quarter of 2014. Net income attributable to Envestnet, Inc. was \$2.5 million, or \$0.07 per diluted share, for the second quarter of 2015 compared to \$3.7 million, or \$0.10 per diluted share, for the second quarter of 2014. Adjusted EBITDA(1) in the second quarter of 2015 was \$17.6 million, compared to \$12.8 million in the prior year period. Adjusted Net Income(1) was \$8.9 million, compared to \$6.6 million in the second quarter of 2014. Adjusted Net Income Per Share(1) was \$0.24, compared to \$0.18 in the second quarter of 2014.

At June 30, 2015, the Company had \$199 million in cash and cash equivalents, and its revolving credit facility was undrawn with \$100 million available.

(1) Non-GAAP Financial Measures

"Adjusted revenues" exclude the effect of purchase accounting on the fair value of acquired deferred revenue. Under GAAP, we record at fair value the acquired deferred revenue for contracts in effect at the time the entities were acquired. Consequently, revenue related to acquired entities for periods subsequent to the acquisition does not reflect the full amount of revenue that would have been recorded by these entities had they remained stand-alone entities.

"Adjusted EBITDA" represents net income before interest income, interest expense, accretion on contingent consideration, income tax provision, depreciation and amortization, non-cash compensation expense, restructuring charges and transaction costs, fair market value adjustment on contingent consideration, severance, litigation related expense, other income and pre-tax loss attributable to non-controlling interest.

"Adjusted net income" represents net income before non-cash interest expense, accretion on contingent consideration, amortization of acquired intangibles, non-cash compensation expense, restructuring charges and transaction costs, fair-market value adjustment on contingent consideration, severance, litigation related expense, other income, and net loss attributable to non-controlling interest. Reconciling items, excluding non-deductible transaction costs, are tax effected using the income tax rates in effect on the applicable date.

"Adjusted net income per share" represents adjusted net income divided by the diluted number of weighted-average shares outstanding.

See reconciliation of Non-GAAP Financial Measures at the end of this press release. These measures should not be viewed as a substitute for revenues, net income or net income per share determined in accordance with United States generally accepted accounting principles (GAAP).
